D-MAX
Keep It Real

THE ALL-NEW
2.2TD
163PS • 400NM • EURO 5

POWER FOR REAL LIFE

The All-New 2.2TD engine, paired with the new 8-speed automatic transmission, is a step forward in how power, efficiency, and durability come together. Delivering 56% more start-up torque* and 5% better fuel efficiency*, it's engineered to perform with more. Advanced systems like a new electronic variable geometry turbocharger with a high-swirl combustion chamber, ultra-low-friction pistons, and high-pressure fuel injector work together to extract more from every drop of fuel; all while meeting Euro-5 emissions standards for cleaner, more responsible performance.

*Compared to the 1.9L engine.

The All-New 2.2TD engine, compliant with Euro-5 emission standards

- Increased engine displacement to 2.2L
- Delivers 163PS and 400Nm of torque for stronger performance
- 8.7% more power output and 14.3% more torque*, supporting heavier loads & everyday work

MADE FOR REAL PERFORMANCE

Reinforced internal components of the All-New 2.2TD engine improve structural strength and stability, allowing the engine to operate efficiently under demanding conditions. It's engineering that prioritises reliability first, so performance remains consistent mile after mile.

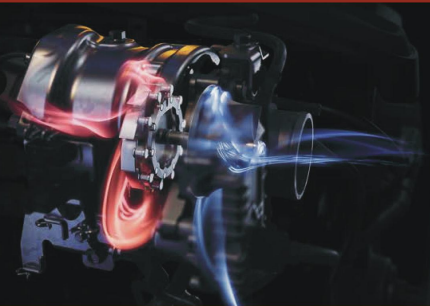

56% More Start-Up Torque*

5% More Fuel-Efficient*

New Electronic Variable Geometry Turbocharger

Adjustable vanes control the flow of exhaust gases through the turbine, adapting instantly to engine demands and allowing for smarter airflow to deliver power exactly where needed for stronger torque, power, and efficiency.

New Ultra-low-friction Pistons

Minimises internal resistance to ensure more of the fuel's energy is converted into usable power, improved efficiency, and effortless performance.

New High-Swirl Combustion Chamber

Helps air and fuel mix more efficiently to boost performance, improve efficiency, and keep emissions low. More power from less fuel, with cleaner air output on every drive.

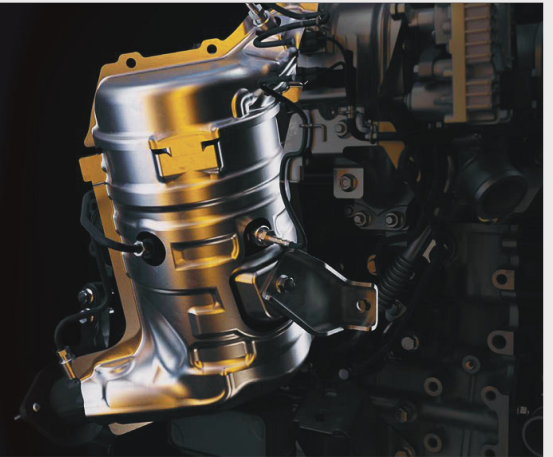

*Compared to the 1.9L engine.

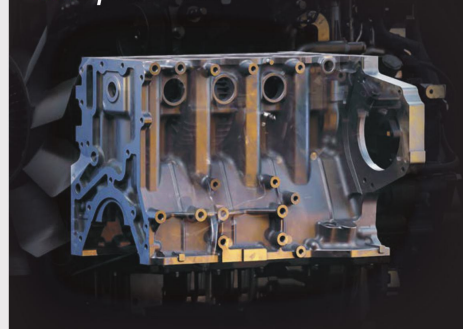

EURO5

New Euro-5 Compliant

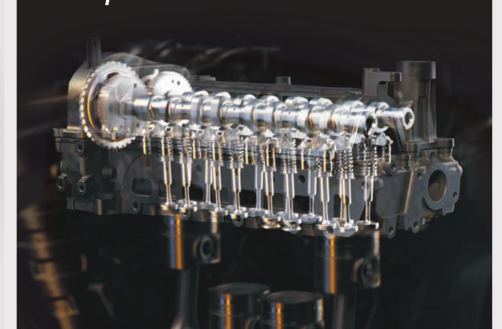

The new after-treatment system reduces particulate matter by 99% and reduces nitrogen oxide by 21% for cleaner emission and environmental friendly.*

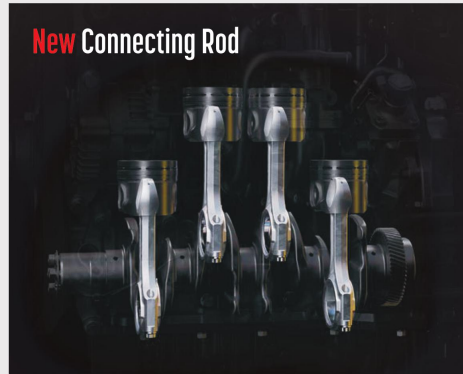

New Cylinder Block

New Cylinder Head

New Connecting Rod

New Crank Shaft

8SPEED
AUTO TRANSMISSION

TUNED FOR REAL EFFICIENCY

The new 8-speed automatic transmission features more gears and a wider range for smoother, more precise shifts. It enhances acceleration, improves drivability, and helps the engine operate more efficiently, giving you confident performance, better handling, and better fuel economy on every journey.

Better Adaptability

From stop-and-go traffic to open roads, more gears let the pickup adjust precisely to changing speeds and loads, for a smoother and more stable drive.

Optimised Performance

The wider gear range allows the pickup to respond more naturally, giving you greater control and confidence.

Quieter, Refined Drive

By keeping the engine at lower RPMs more often, noise, vibration, and engine stress are reduced, especially on longer drives or at highway speeds.

Improved Fuel Efficiency

With more gear options, the pickup uses less fuel on highways and in town.

ENDURANCE FOR REAL TERRAIN

ISUZU
DYNAMIC
DRIVE PLATFORM

*Only applicable for all 4x4 double cab and single cab

TERRAIN
COMMAND

Shift between 2WD, 4WD-High, and 4WD-Low modes to easily conquer any road, wet or rugged.

Rough Terrain Mode

Seamlessly manages engine power and braking systems to transfer torque or brake for a required wheel.

4x4
CHASSIS

Rear Differential lock ensures that you have the traction you need to get out of difficult obstacles when travelling off-road.

*Only applicable for all 4x4 double cab & single cab

High Ground Clearance

This pickup is built with an impressive ground clearance of 235mm, paired with a 30.5° approach angle and a 23.9° departure angle.

800mm Water Wading Depth

Allows you to navigate water crossings at approximately 8km/h with confidence.

RESILIENCE FOR REAL ADVENTURE

THE NEW **ISUZU** D-MAX
PREMIUM

Where the road ends, your journey begins. The New Isuzu D-Max Premium pairs rugged capability with refined control, powered by the All-New 2.2TD engine at its heart. With upgraded lighting, bold machined alloy wheels, and a more refined interior with leather seating, every climb and challenge is met with responsive torque, steady power, and durable performance for off-road adventures wherever the path may lead.

READY FOR REAL BUSINESS

When it comes to getting the job done, every day brings a new challenge, and The New Isuzu D-Max Standard is built to meet it head-on. Its robust frame, powerful All-New 2.2TD engine, and practical design enhanced by refreshed exterior styling, smoother driving with the new 8-speed automatic transmission, and more intuitive infotainment make it a pickup that thrives under pressure. This is a machine that lets your business do more, handling whatever comes its way during real work.

CONFIDENCE FOR REAL SAFETY

Life on the road doesn't always go as planned. Sudden rain, unexpected stops, or tight city corners bring their own challenges. The New Isuzu D-Max helps you meet them with confidence. Passive and active safety systems work hand-in-hand in the background to keep the pickup steady and responsive, while advanced technology provides extra awareness for when the road gets tricky, giving you peace of mind every time you turn the key.

Rear Cross Traffic Alert (RCTA)

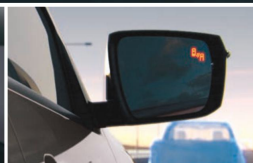

Detects when an object approaches the rear of the vehicle and alerts the driver.

6-SRS Airbags

Front Digital Video Recorder

Blind Spot Monitor (BSM)

Explore more features

Anti-lock Brake System (ABS)

Ensures the vehicle can still be manoeuvred in emergency situations.

Electronic Brake-force Distribution (EBD) & Brake Assist (BA)

Controls braking force between front and rear wheels, depending on vehicle load, and helps to apply full braking force in emergencies.

Electronic Stability Control (ESC)

Helps you stay in control of the vehicle.

Front & Rear Parking Sensor

8 sensors provide instantaneous feedback to detect objects during parking.

Traction Control System (TCS)

Allows greater control over the road or terrain.

Emergency Stop Signal (ESS)

In emergency situations, warning lights are activated to indicate that the vehicle is braking rapidly.

Hill Start Assist (HSA)

Automatically prevents vehicle roll-back when starting on steep gradients.

Hill Descent Control (HDC)

Automatically controls the brakes and maintains vehicle speed when descending steep slopes.

*Only applicable for Premium
